

# **Small Children's Party Ideas - Moon Walk Rental!**

**You've got the moon walk set up, now what?**

**Games to get everyone involved!**

## **Bounce Like a... Game**

Tell the children that every time you count 1-2-3 then yell out an animal, they have to jump like that animal.

Try frog, kangaroo, rabbit, then see what happens when you call out lizard, bird, elephant, fish and snail!!

## **The Giggle Game**

Have one child lie down in one corner of the moon walk, then have the next child lay down at right angles to the first child with his/her head on the first child's stomach. Have a third child lay down with his/her head on the second child's stomach. Keep on until everyone is lying down. Then have the first child say "HA". This will cause the second child to start laughing then the third, then so on.

You may have played this one before, but not in a moon walk!

## **Balloon Fun**

Grab some balloons and toss them in the moonwalk with the children. They can bounce with them and toss them in the air.

## **Tumble Races**

Have the children take turns with this one.

Line up 4 children on one side of the moon walk and when you say "GO" they somersault their way to the other side, touch the wall (or net) and then lay down and roll back to the other side.

## **Red Light/Green Light**

When you yell "green light", everyone bounces. When you yell "red light" everyone freezes.

**These ideas should add some fun to your child's party!**
